

**SCHOOL COMMUNITY REFUGEES WELCOME** is a newly formed group within our school that aims to sponsor a refugee family, hopefully in partnership with another school with more first-hand experience with refugee settlement.

There are three core parts to a sponsorship -- an application process, a one-time financial commitment of approximately \$30,000, and providing settlement support over time, especially in the first year.

Please **complete this survey** by xxxx.

1. I want our school community to sponsor a refugee family (yes/no)
2. Keep me informed (enter email address)
3. I am interested in getting involved by:
  - helping with language
  - locating housing
  - organizing fundraising
  - communicating about the initiative
  - helping with the application process (seeking documents, settlement plan)
  - making a financial donation
  - helping connect to training or employment
  - neighbourhood orientation
  - providing household goods or furniture
  - transportation
  - don't know

Our school community refugees welcome would be a new initiative, and will not draw on existing school board or school council budgets.
